

Asbestos Re-inspection

The Siuslaw School District 97-J has performed its AHERA required 3 year re-inspection of their facilities for asbestos-containing materials in accordance with Environmental Protection Agency Rule 763.85b. The findings and recommendations of this inspection will be documented in an operations and maintenance program, which will be on file at the Maintenance Department and by request will be made available by appointment for inspection and review during regular business hours.

The Siuslaw School District has not performed any abatement projects since the last AHERA inspection.

The next required inspection is scheduled for August 2017. At this time all of the AHERA information will be updated .

Further clarification or additional inquiries should be directed to Bob Archer, Maintenance Supervisor at 541-902-7471.
